VASCO LUÍS SILVÉRIO

FRONTEND DEVELOPER

Vila Nova e Gaia, Porto

I developed projects with the aim of improving my skills in creating Web applications with a modern and intuitive design. Professional with knowledge of developing scripts and solutions for data organization. I have been working as a freelancer in the last few months developing projects focused on Frontend adapting my skills in: **HTML, CSS, JavaScript Git/GitHub, React.js.**

PROFESSIONAL EXPERIENCE

Freelancer, Porto
Frontend Developer
December 2024 – So far

Project: Website for a cafe (Project link)
The website under development aims to offer an immersive online experience in the world of coffee, through a modern, interactive, and responsive design, built with standard web technologies such as HTML, CSS and JavaScript. The main focus is to present products and services in a way that is attractive to coffee enthusiasts.

Freelancer, Porto
Frontend Developer
June 2024

Project: App Weather (Project link)
App Weather, is a simple and functional web application that allows users to obtain weather information for any location in the world. Built with standard web technologies like HTML, CSS and JavaScript, it combines intuitive design with practical functionality, leveraging external APIs to provide real-time weather data.
